

WELCOME FOR THE EL PASO BOOSTERS

Mayor Fraser, City Councilmen and Members of Reception Committee Extend Glad Hand to Visitors of the Pass City

ENTERTAINMENT AT ARMORY

Clifton is Recipient of Monster Wooden Key to the Gates of the Pass City for Osapple Jubilee.

The second excursion of the business men of El Paso is now under way through Arizona and the first stop was made in Clifton on Monday night. From Clifton the party of excursionists, composed of fifty-three leading business men of El Paso, visited at Morenci, and later in the day at Duncan, and in each of the three places were accorded a hearty and enthusiastic reception. As H. D. Slater, editor of the El Paso Herald, expressed it, the reception accorded the visitors in Greenlee county had never been excelled in the southwest.

The object of the visit was to get better acquainted with the people residing in the big territory surrounding El Paso with whom for many years the most pleasant and cordial business and social relations have existed. If the good feeling engendered and the pleasant recollections left behind in this section may be taken as an indication, the trip has been a grand success.

A few weeks ago the Clifton Chamber of Commerce received notice from the El Paso Chamber of Commerce that a delegation of that body would visit Arizona and New Mexico and would be in Clifton on the night of October 14th, at 7:30 p. m. Secretary J. J. Kelly called a meeting of the local organization to prepare a program of entertainment and reception and the various committees on arrangements and finance were appointed.

When the big special train rolled in to the depot on Monday evening, in addition to the reception committee, the Mayor and members of the Town Council, there was a general outpouring of Clifton citizens to bid the visitors welcome. Headed by the splendid 22d Infantry band the excursionists were escorted across the bridge to the East side where a band concert was enjoyed for an hour while the visitors were looking up old business friends and making new acquaintances. Main street was soon flooded with colored celluloid keys, folders, all kinds of advertising devices, and official programs of the Osapple Jubilee commencing in El Paso on October 23.

At the conclusion of the band concert the visitors, escorted by local citizens, boarded the special train which was switched to Hill's Addition where the entertainment, in charge of Peter Riley, and committees, had provided for a grand ball and refreshments. The band proceeded to the stage and for two hours played for the merry dancers in a manner never to be forgotten.

Before the dancing began Norman Carmichael, General Manager of the A. C. Co., welcomed the visitors on behalf of the Clifton Chamber of Commerce and the people of Clifton. Eugene Harris, a member of the State Legislature of Texas, of the El Paso party, responded in a happy vein, and concluded by the presentation of the giant key to El Paso to the people of Clifton.

In behalf of the Ocean to Ocean Highway Association, Vice-President Dell M. Potter, of Clifton, extended a welcome. He told of the great good to accrue to the southwest by reason of the building of the Ocean to Ocean Highway and asked El Paso to join hands and secure this great boon along the line of the Santa Fe trail.

AT MORENCI.

The special train left Clifton Tuesday morning at 7:40 for Guthrie where the transfer was made to the Morenci Southern narrow gauge train for the run of eighteen miles to Morenci over one of the most wonderful railroad lines in the world. At Morenci the visitors were met by General Manager A. T. Thomson at the head of the reception committee, composed of Milton McLean, Col. A. M. Tut-till, W. J. Donahue, L. J. Owen and others. After a quick change of engines the entire party was taken over the camp in open cars and landed at the big concentrator of the D. C. M. Co. After an inspection of this big mill they were taken for a sight seeing trip and landed at the big store where the band and El Paso quartet entertained a large crowd of visitors.

EQUAL SUFFRAGE LECTURE HERE

Senator Davis, of Maricopa, Talked to a Good Sized Audience in Clifton Says Outlook Good at Coming Election.

The lecture delivered by Senator H. A. Davis Saturday night was well received by a good sized audience. He spoke on Woman Suffrage and presented his remarks in straightforward logic. He spoke in Library Hall, this being the only hall in Clifton unoccupied that evening.

Senator Davis said in part: "It would appear casually that there would be no further need of campaigning in behalf of woman's suffrage in Arizona. All political parties of Arizona have adopted the equal suffrage amendment. Practically all labor organizations have endorsed it and many other civic and fraternal orders have lent their approval.

"But we are taking no chances as we want as nearly a unanimous vote as we can get. And there is another thing. Political platforms should mean what they say. If there should be much defection on a measure after all parties have declared for it, there will result a general feeling of insecurity in platform declarations that will have a bad effect in the future. "I am in close touch with the situations all over the state. If the election were held tomorrow the Woman's suffrage amendment would carry by a large majority. If there is anything which can head it off, and stem the increasing sentiment I don't know what it is. Every one interested in this cause is working hard for the success of equal suffrage and I have every faith in its success at the coming election."

Senator Davis is making a tour of the South end of the State and is meeting with excellent results.

STEVE ROEMER HERE

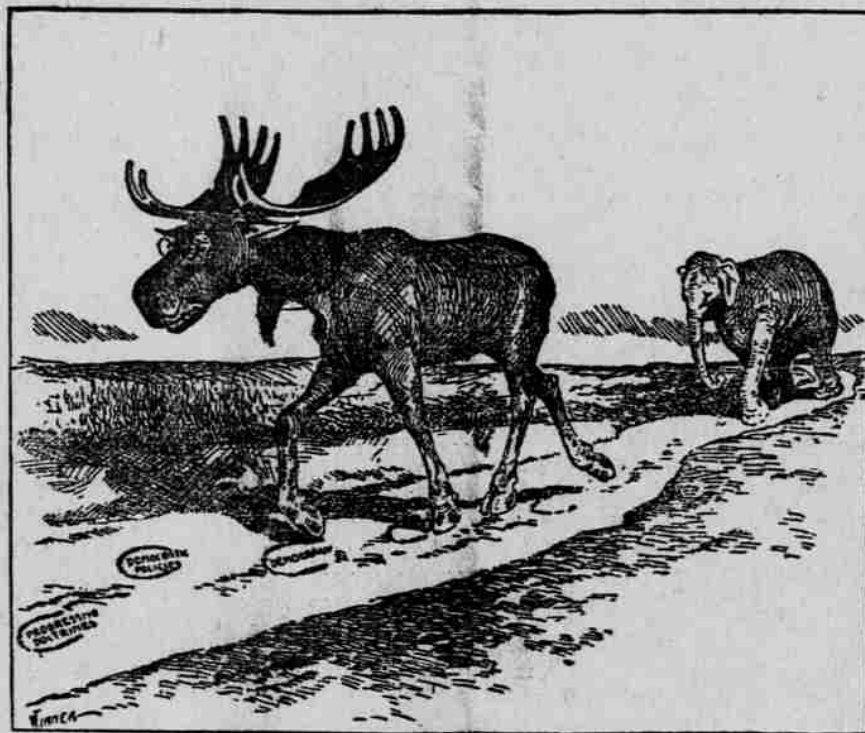

Hon. Steve Roemer, traveling auditor for the Wells-Fargo is spending a few days in Clifton on his regular trip. He is one of the real Arizona boosters and has many good things to say about Clifton. Mr. Roemer was for three terms a representative of Cochise county in the Territorial Council and during that time was a hard worker for Arizona generally. He was located at Benson for fifteen years as representative of the Wells-Fargo and during that time was a moving spirit in the business enterprises which went far to make Benson a thriving business supply point. He has a number of mining interests near Benson and was director in the Railroad to Johnson. He is now president of the Bank of Benson.

"I like Clifton immensely, said he, and am always surprised with the great amount of business which is always going on at this point. It seems to me that Clifton has a very bright future and that there will be greater mining interests here in the future than in particularly any other district in Arizona. The location is far better than other mining camps in the State and is a pleasant place to reside. The amount of business which is done here is certainly surprising.

The visitors were met by General Manager A. T. Thomson at the head of the reception committee, composed of Milton McLean, Col. A. M. Tut-till, W. J. Donahue, L. J. Owen and others. After a quick change of engines the entire party was taken over the camp in open cars and landed at the big concentrator of the D. C. M. Co. After an inspection of this big mill they were taken for a sight seeing trip and landed at the big store where the band and El Paso quartet entertained a large crowd of visitors.

Later a light luncheon was served at the hotel and on behalf of Morenci citizens Mr. Thomson accepted a similar key delivered to Clifton on the evening previous. Shortly after twelve o'clock the train to Guthrie was made where the big special was waiting and at 2:30, exactly on schedule time, the visitors arrived in Duncan.

The party was escorted over the A. & N. M. line by Traffic Manager R. K. Minson. The operation of the special was under the personal supervision of Superintendent Reisinger and the visitors were loud in their praises of the courtesies received at the hands of the A. & N. M. officials.

THE FOLLOWERS.

—Winner in the Pittsburg Post.

DEMOCRATS PLAN BIG RECEPTION FOR SPEAKERS

Senator Mark Smith, Congressman Carl Hayden and Electors Wiley Jones and John R. Hampton Will Open National Campaign.

On Tuesday evening next at 8 o'clock, at Prettyman's Opera House, some of the best speakers in the campaign for Wilson and Marshall in Greenlee County will appear.

Heading the list comes that white haired old democrat war horse Hon. Marcus A. Smith. In the same party is Hon. Carl Hayden, Arizona's able and hard working representative in the House. Hon. Wiley E. Jones, who received the highest vote in Arizona as a presidential elector, is arousing the greatest enthusiasm all over Arizona wherever he has spoken in this campaign.

These campaign speakers will arrive in Clifton next Tuesday evening and all arrangements have been perfected by the Clifton Democratic Club to accord to them an enthusiastic and cordial welcome. All Democrats are requested to be at the train to receive the speakers. Arrangements have been made for brass band music for the occasion and a special invitation is extended to the ladies to be present at Prettyman's hall on Tuesday evening.

From Clifton the party of speakers will journey to Morenci on Wednesday and will speak at the Morenci Club on Wednesday night.

If you are interested in the issues of this great national campaign turn out and hear them discussed by our representatives lately of Washington and the east.

The registration for the election on November 5th closed on October 15. There are exactly 1421 registered voters in Greenlee County proportioned to the several precincts as follows:

Clifton votes.....	715
Metcalf.....	93
Morenci.....	332
Duncan.....	37
Sheldon.....	20
Blue.....	27
Eagle.....	37
York.....	3
Guthrie.....	8
Total.....	1421

Realty Mortgage—C. W. Beck to First National Bank.
Satisfaction of Mortgage—Brunswick Balke Callender Co., to Peter Riley.
Appointment of Deputy—J. D. Patten to Frank Laverty.
Satisfaction of Mortgage—Gila Valley Bank to W. E. Spaw et ux.

COPPER QUEEN TO PAY BI-MONTHLY

New System Goes Into Effect Next Month Permanently Regardless of the Referendum Vote Next Month—Pleases All Employees and Business Men.

(Bisbee Review)

Beginning with the wages due for the month of November, the Copper Queen Consolidated Mining company will inaugurate the semi-monthly pay day for all employees of that company. This was the announcement made yesterday afternoon by S. W. French, general manager, who was here from Douglas.

For several days there has been a rumor in Bisbee about the probability of the Copper Queen adopting the semi-monthly pay day, which means that instead of the employees receiving their wages once each month, they will receive payment twice each month, or every fifteen days.

When Mr. French was called on the telephone last night, he confirmed these rumors. He said:

"When the semi-monthly pay day law was being considered by the legislature, we were led to believe, from expressions of our employees, that they preferred a monthly wage payment to the semi-monthly plan, a number so expressed themselves as many others expressed themselves as entirely indifferent in the matter.

"Soon after this new pay day law was held up by a referendum petition, it was decided by the management of the Copper Queen that a careful investigation would be made to ascertain as near as possible the sentiments and desires of the employees regarding the matter, with the purpose of taking such as we found was the wish of the miners, smeltermen and other employees.

"As a result of this investigation, have found that a decided majority of the Queen employees prefer to have the semi-monthly pay day plan, and thus finding the sentiment, it has been determined to inaugurate this system of payment as soon as the auditing department can arrange for the new system of handling the payroll of next month—November.

"This plan will not only be inaugurated now, but it will be permanent and continued, regardless of any result of the referendum vote which is to be taken throughout the state on the new pay day law."

Measure Popular.

The semi-monthly pay day law has received a hearty welcome from a very large majority of the business men of Bisbee. When the measure was made the subject of a referendum vote, there was a quick rally of the business men to its support; the Business Men's Protective Association, adopted resolutions in support of the new law, and the Warren District Commercial Club took similar action, and the sentiment among the miners was claimed to be also in favor of the semi-monthly pay day.

Because of this widespread sentiment, there will be satisfaction in Bisbee because of the announcement of the Copper Queen company, as this assures to the miners and other workmen in this district the carrying out of the objects of the new law, regardless of the referendum vote.

TRIAL JURORS WILL BE CALLED ON MONDAY

Grand Jurors Conclude Their Labors in Three Days and Bring in Final Report—Demurrer to Super-Visor Indictment is Overruled.

Making a record for expediting business the grand jury which met in the new court house on Monday morning last concluded their labors on Wednesday evening, and after submitting their final report, adjourned.

In all eleven indictments were returned and several cases ignored, among which was the case of the State vs. Jim Cash, of Morenci, charged with an assault with a deadly weapon upon B. K. Williams.

Among those indicted were: Martin Parra, Vicente Ontiveras, Jesus Abezta, Wm. Blake, Jesus Romero, E. M. Short, Rufino Ramirez, Wm. Blaks, Jose Diaz, C. A. Cassalay, Ceise Lozano.

Those indicted have been arraigned during the week, pleas have been entered, and the cases set for trial next week.

On Friday morning a demurrer was argued before the court in the case of the State vs. J. H. T. Cosper, Geo. Webster and Frank Billingsley, former members of the Board of Supervisors, on the alleged charge of destroying public records. The demurrer was argued on both sides by the attorneys and the demurrer overruled by the court. This case will be tried at the present term.

Friday and Saturday was taken up in hearing of the civil suit of R. G. Franz vs. J. W. Bennie and the Shannon Copper Co., both cases being consolidated.

During the week the case of T. P. Clark, a suit for damages, against the Shannon Copper Co., et al was dismissed as to the Arizona Copper company, Ltd., and the A. & N. M. R. R.

GRAND JURY FINAL REPORT.

In the Superior Court of the County of Greenlee, State of Arizona.

We, the Grand Jury, having been duly empaneled and sworn and after examining into all Charges brought before us and after an examination of the County Buildings, beg to submit our final report as follows:

We have examined Fifteen (15) cases and found Twelve (12) True Bills and recommend Three (3) releases.

After having examined into the various County Buildings of Greenlee County, Arizona, submit and recommend the following:

Jail.
That upon thorough investigation we find the jail to be kept in first-class condition, neat and orderly.

We respectfully wish to recommend the following improvement:

No. 1—That the water pressure be increased so as to afford a more perfect cleanings of the toilets (this should receive immediate attention).

Second—That a closet be placed under stairway for the storing of brooms, buckets, mops, etc.

Fourth—That drop lights be placed in Sheriff's office and Jailors room.

Fourth—That door bell be placed on front door.

Fifth—That retaining wall be placed back of Jail Building.

Hospital.

We recommend that the Board of Supervisors require of the owner of said hospital building to put in a four inch iron vent pipe connecting all fixtures such as sink, closet and bath tub, and run to Two feet above the roof of said building.

Also install stop jars, six pairs of wool blankets, four rubber hot water bags, and also recommend that the Board of Supervisors have the floors of the two rooms on first floor on East side painted with two good coats of floor paint, so they can be mopped and kept clean.

Court House.

We find in the basement one light on an inside door leading to the boiler room missing, that water service is poor, that the pressure should be increased for the protection of the building in case of fire. We also recommend the purchase of enough fire hose which should be placed at plugs now in the building, the telephone service is also very poor.

Aside from the above we find the building in first-class condition and apparently well cared for.

In conclusion we wish to extend our thanks to the County Attorney for his kind assistance which enabled us to transact our business promptly and orderly, and further wish to thank the Honorable Judge of the Superior Court for his assistance in the prompt dispatch of our duties.

SAM ABRAHAM,
Foreman of the Grand Jury.

BIG MINING DEAL MADE HERE

Detroit Copper Co. Purchases From J. K. Erskine, Jr., All of the Holdings of New England Company

STANDARD GROUP INCLUDED

Means Another Active Producer in the Clifton-Morenci District in the Near Future With More Men Employed.

The reason of the inactivity of the New England Copper Co., and the Standard Mines Co., and allied companies, during the present prevailing high prices of copper, has been made plain. Negotiations have been under way for the purchase of this extensive and valuable property and according to a deed placed on record in the office of the County Recorder of Greenlee County this week the Detroit Copper Co., of Morenci, is now the owner of all the mining claims, mill sites, tramways, railroads, lands, etc., formerly owned by the New England Company.

While the deed has not yet been placed on record it is stated on good authority that all the property owned in the district by the Standard Company, and allied corporations, will shortly be transferred by Mr. Erskine and other stockholders to the Detroit Copper Company.

The transfer recorded this week embraces one hundred and twenty-five mining claims. The consideration expressed in the deed is \$10.00 "and other valuable considerations." The other valuable considerations no doubt amounted to several hundred thousand dollars.

The news of the transfer was gladly received in the district for the reason that it is a well known fact that with this immense mineral area in the hands of Phelps, Dodge & Co., work on a large scale will be commenced in a systematic and intelligent manner and that a large force of men will be required for its operation.

The New England & Clifton Copper Company is located five miles northwest of Clifton. The ores are principally chalcocite and chalcocite, with occasional oxides and carbonates, all slightly auriferous and argentiferous. The main vein is said to show an extreme width of 150 feet.

The value of the transfer of the New England property and Standard property to the Detroit Co., lies in the fact that this section of the district will now be explored and developed in a thorough manner and will add materially to the prosperity of the district.

COW PUNCHERS NOW AT TUCSON.

Tucson is this year the scene of the annual convention of the Arizona Stock Growers' Association, of which James A. Johnson, of Coconino County, is the president. Thomas N. Willis, of Mammoth, the vice-president, and Sam B. Bradner, of this city, the secretary. The body will meet for the first time since the special meeting held in this city last March, on Friday morning.

Stock growers from all over the state are already on the move to the Ancient City, and there are some 600 or 700 members in Arizona, to attend the big meeting and to listen to the reports from the officers and lay plans for the furtherance of the interests of the stock growers in the state.

When the association met here last March they were all impressed with the necessity of drafting a new law for the protection of the industry in this section, but failed to finally agree upon just what all should be done. It is thought by many of the prominent members of the association living in the Salt River Valley that there will be an absolute agreement this time upon some of the things, and that if additional legislation is needed the association will be in position to state definitely what it wants.

For the first time in the history of the organization the president and secretary of it are also the president and secretary of the Arizona Live Stock Sanitary Board. This will give the association a standing in official circles that it has not heretofore had and enable it to put matters before the state administration from the standpoint of both the association and the board, both of which are working in harmony.
